APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

| | Date of filing in State Engineer's Office | JUL 1 4 1980 | | | |
|--|--|--|--|--|--|
| Map filed. MOV 1.4 1980 under 41702 The applicant. U. S. Government. Ballistic Missile Office. AFRCE-MX, Norton Air Force Base of Color Terms. California 92409 hereby as No. San No. Color Terms. California 92409 hereby make. application for permission to appropriate the public material of Novada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 1. The source of the proposed appropriation is underground. 2. The amount of water applied for is underground. 3. The water to be used for. (a) If stored in reservoir give number of acre-feet. (a) If stored in reservoir give number of acre-feet. (a) Irrigation (state number of acres to be irrigated). (b) Stockwater (state number of acres to be irrigated). (c) Other use (describe fully under "No. 12. Remarks"). (d) Power: (1) Horsepower developed. (2) Point of return of water to stream. 5. The water is to be diverted from its source at the following point: S. E. & of N. E. & of Unsurveyed Section 11. I. S. R. 59E., M. D. M.; and bearing S. 35 Og V. W. 23, 170 feet to S. N. Corner of Daccide as bela with a 8-set substitution of public survey, and by course and disaste to a sected corner. If or autory and bearing S. 35 Og V. W. 23, 170 feet to S. N. Corner of Daccide as bela with a 8-set substitution of public survey, and by course and disaste to a sected corner. If or autory and bearing S. 35 Og V. W. 23, 170 feet to S. N. Corner of Daccide as bela with a 8-set substitution of public survey, and by course and disaste to a sected corner. If or autory and bearing S. 35 Og V. W. 23, 170 feet to S. N. Corner of Daccide as bela with a 8-set substitution of public survey, and by course and disaste to a sected corner. If or autory developed in Daccide as bela with a 8-set substitution of public survey, and by course and disaste to a sected corner. If or autory developed in Daccide as bela with a 8-set substitution of public survey. 7. Use will begin about. Janu | Returned to applicant for correction | • | | | |
| The applicant. U. S. Government. Ballistic Missile Office AFRCE-MX, Norton Air Force Base of San Bernardino Store subtace FA. Son No. California 92409 , hereby make. application for permission to appropriate the public store and the cost No. Waters of the State of Novada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 1. The source of the proposed appropriation is. underground 1. The source of the proposed appropriation is. underground 2. The amount of water applied for is. 1.0 Consecond-foot equals 444.85 gail, nor min. (a) If stored in reservoir give number of acre-feet. acre-feet 3. The water to be used for. Quasi-Municipal Irrigation, power, mining, manufacturing, dementic, or other use. Most limit to one use. 4. If use is for: (a) Irrigation (state number of acres to be irrigated). (b) Stockwater (state number and kinds of animals to be watered). (c) Other use (describe fully under "No. 12. Remarks"). (d) Power: (1) Horsepower developed. (2) Point of return of water to stream. 5. The water is to be diverted from its source at the following point: S.E. & of N.E. & of Unsurveyed Section 11, 13., R.59E., M.D.M.; and bearing S.35 ⁰ 02.1 23, 170 feet to S.M. Corner of Describe as being within a source point on the point of the survey, and by course and diamate to a notice scene. If an asserted land, remains the state and Day Name of stream, lake or other source. 7. Use will begin about. January 1 and end about December 31 point of each year. Most and Day 8. Description of proposed works. (Under the provisions of NRS 535.010 your way be required to submit plans and specifications of your diversion or storage works.) Attachment A

The attached application for the appropriation of ground water is for the purpose of supplying water for the construction and operational phases of the MX Missile System in Coal Valley. The attached application is one of nine for appropriation of ground water in the valley. Each application is for 384 acrefeet per year of ground water resulting in a total quantity of 3456 acrefeet per year for the ground-water basin. This is a conservative figure and is greater than that which will likely be required annually during the construction perfod. The 3456 acrefeet are requested for only a one to two year construction period within a span of five years beginning in 1984 and ending in 1989. Construction of roads and a possible construction plant and camp are expected to commence about one year prior to shelter construction and will require less than one-fifth of the 3456 acre-feet figure. Ground water required for road construction is included in the 3456 acre-feet for shelter construction. Following construction the operational ground-water use is expected to be less than 300 acre-feet per year. This reduced quantity of ground water will be needed for the life span of the system which will be approximately 20 years.

The ground water for construction will be used for road compaction, dust suppression, shelter construction, miscellaneous structures, and possibly construction plants and camps. Ground water for the operational phase will be used for maintenance and surveillance facilities personnel as well as other possible support systems.

The place of use of the ground-water, as indicated on the attached water rights survey map, covers the entire valley in anticipation of the probably broad areal extent of construction activities. It is possible that once the construction planning has been completed, a request may be filed to change the point of diversion on the attached application to a more strategic location, however, the above stated total quantity of ground water will remain the same.
